

General Report for the year 1780 -

Edinburgh April 16th 1803.

Sir,

I have the honor
to acquaint you, for the
information of the Commission-
ers for Auditing the Public
accounts, that I put into the
Post Office here the day before
yesterday (Thursday 14th April)
attested accounts and vouchers
of mine, according to the
enclosed abstract. That pac-
ket was addressed, as you
desired, under cover to the
Comptrollers of Army Accounts,
and should reach London
in time on Monday morn-

Genl. Cobbe Esq^r

ing.

ing. But lest the packet
should not be forwarded
immediately from the
Comptroller's Office, and as
the Commissioners directed
me to exhibit my accounts
on or before Tuesday next
before 12 o'clock (on the
morning of which you will
receive this letter) I take
the liberty of troubling you
with this, that in case
you should not have
received the accounts
before, you may send to
The

The Comptroller's Office for
them; as it would give
me very great concern,
if, after the indulgence
I have experienced from
these Commissioners, they
should have any reason to
believe that I had not paid
the strictest attention, as far
as was in my power, to
their Orders.

There the honor to be,
Sir,

Your most obedient &
most humble Servant

Geo: Ferguson

M422

16th August 1853

Geo Steegman.
