Hamilton College.

Admission.

It is required that the candidates for admission to the Freshman Class should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

IN GREEK: Xenophon's Anabasis, three books; Homer's Iliad, one book with prosody.

IN LATIN: Cæsar's Commentaries, four books; Virgil's Æneid, six books with prosody; Cicero, six Select Orations; Sallust's Catiline; and either Sallust's Jugurthine War, or the Eclogues of Virgil; Arnold's Latin Prose Composition, twelve chapters.

IN MATHEMATICS: Arithmetic; Algebra to Equations of the second degree; Plane Geometry.

Candidates will also be examined in English, Latin and Greek Grammar, Ancient and Modern Geography, History of the United States, Greek and Roman Antiquities.

The ENTRANCE EXAMINATIONS are held at 9 o'clock, A. M., on the Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Candidates for admission to College should bring with them, to the Senior Class Room, pencils for writing, and a copy of each Greek and Latin Author in which they propose to be examined.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and, at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the students are required to attend public exhibitions in the Chapel, of Declamation, and of original Essays, Disputes and Orations, under the direction and criticism of the Professor of Rhetoric.

Chemistry.

A building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and a focal length of nearly sixteen feet: it is provided with six positive and six negative eye-pieces, with a ring and a filar micrometer, and for solar observations, with a prismatic polarizing eye-

piece of original construction by Robert A. Tolles. The declination circle of twenty-four inches, by means of four verniers, reads to four seconds of arc: the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square: the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of $2\frac{1}{2}$ inches aperture, the gift of Hon. ANSON S. MILLER, of Rockford, Ill., and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by the late Hon. WM. CURTIS NOYES, of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the spring governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Hamilton College Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburgh, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitude of the Lake Survey: the latest work of this kind has been to determine the longitude of the western boundary of the State of New York.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer, by SIMEON BENJAMIN, Esq., of Elmira.

The following Asteroids were first discovered at the Hamilton College Observatory:

- FERONIA, No. 72, May 29, 1861.
- EURYDICE, No. 75, September 22, 1862.
- FRIGGA, No. 77, November 12, 1862.
- IO, No. 85, September 19, 1865.
- THISBE, No. 88, June 15, 1866.

HAMILTON COLLEGE.

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz :

1. 9,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh water, and Marine Shells.
9. 300 Specimens in Ornithology, from China.
10. 13 Cases of Specimens in Entomology.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are at all times accessible to students.

A few gentlemen in the city of New York have recently presented to the College, the private library of the late Professor EDWARD ROBINSON, of Union Theological Seminary. It consists of 1420 volumes, and about 100 valuable maps, and furnishes complete apparatus for the study of Biblical Exegesis and Scripture Geography.

HON. WILLIAM CURTIS NOYES, LL. D., a native of Oneida county, and an honorary alumnus of the College, after a life of eminent service, professional and political, recently died in the city of New York, bequeathing to Hamilton College his Law Library. The Collection numbers about five thousand volumes. The books have been collected during a practice of over twenty-five years, at a cost of not less than sixty thousand dollars. "The Collection consists of all the American Reports, with scarcely an exception, down to the present time; of all the English Reports in the Courts of Law and Chancery, and in the Exchequer, down to the beginning of the year 1860; and all the Scotch decisions, in the Justiciary, Senior Courts, and House of Lords; and the Irish Reports in Law and Equity.

In Elementary Law, it contains all the principal treatises in England and America, among which is the 'Law Library,' in all the series, in upwards of ninety volumes.

It contains a complete set, in upward of seventy volumes, of the printed statutes of the colony and state of New York, including the session laws from the earliest period, commencing with a copy of Bradford's, printed in London,

in 1719, which formerly belonged to Lord De la Warr, and seems to have come from the plantation office in the colony.

There is hardly any law book which a lawyer in large practice may have occasion to consult, that may not be found in this collection."

Arrangements have been completed, by which the NOYES LIBRARY is accessible to Members of the Bar.

Valuable gifts of books have been made to the College, recently, by Rev. Dr. L. M. MILLER, of Ogdensburgh, and by Hon. ROSCOE CONKLING, Hon. FRANCIS KERNAN, and R. S. WILLIAMS, Esq., of Utica.

A portrait of Rev. Dr. EDWARD ROBINSON, of Union Theological Seminary, of the Class of 1816, has been presented by the artist, DANIEL HUNTINGTON, Esq., of New York. Rev. A. D. GRIDLEY, of Clinton, has also enriched the College collection with a portrait of Rev. SAMUEL KIRKLAND, the founder of the College, painted by AUGUSTUS ROCKWELL, of Buffalo.

The corner stone of a new building for the Library was laid, with appropriate and impressive ceremonies, at the last Commencement.

In honor of the principal contributor to the fund for its erection, Hon. PERRY H. SMITH, of Chicago, of the Class of 1846, the building is to be worthily named the "*Perry H. Smith Library Hall.*" The alumni of the College in Illinois, Wisconsin and Iowa, have also been filial and most generous in their gifts. It is expected that the Library Hall will be completed during the present collegiate year.

The building will probably be two stories high above the basement: 75 feet long and 50 broad. The first floor above the basement will be divided into the vestibule and hall, two rooms for the librarian, and the library proper. The alcoves in the library room will be arranged in three tiers, one above another, and with the adjacent walls and the Librarian's rooms will furnish a place for 60,800 volumes. The Library is to be lighted by windows in the side walls and by skylights.

Over the entrance hall and librarian's rooms, there will be an apartment for a Memorial Hall and Art Gallery, to contain tablets and portraits of the alumni and other students of the College who have served their country; also portraits and other memorials of the founders of the College, its officers and benefactors. Architect, EDWARD D. HARRIS, of the firm of RIDER & HARRIS, Boston.

Sartwell Herbarium.

Through the liberality of the late HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been enriched by the HERBARIUM collected by Dr. H. P. SARTWELL, of Penn Yan, and well known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, skillfully cured, accurately labelled, and conveniently classified in sixty-two handsome volumes.

HAMILTON COLLEGE.

Among the more unique or useful specimens are 451 *Mosses*, 225 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceæ*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the undergraduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And, for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution.

Religious Instruction.

Morning and Evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their greatest spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction is arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian Missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.
5. Of Curran Prize Competitors, the twelfth Saturday of the Second Term.
6. Of Underwood Prize Competitors, the fifth Wednesday of the Third Term.
7. Of Tompkins Prize Competitors, the eleventh Saturday of the Third Term.

Prizes.

1. The interest of a Prize Fund of \$700, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be awarded in the form of valuable books to the two students in each of the three lower classes who excel in Elocution: valuable books will also be given to the two in each class who excel in English Composition.

2. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

3. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitor for the Head Prize, who shall write the best Oration on "The Duties of Educated Young Men to the State."

4. The interest of a Prize Fund of \$500, founded by Hon. FRANKLIN H. HEAD, of Salt Lake City, Utah Ter., will be given to any student of the Senior Class, except the successful competitor for the Pruyn Medal, who will write the best Oration on "The Intellectual Rank of Alexander Hamilton among his Contemporaries."

5. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

6. The interest of a Prize Fund of \$500, founded by relatives of the late Col. HENRY H. CURRAN, of Utica, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

7. The interest of a Prize Fund of \$500, founded by MARTIN HAWLEY, Esq., of Baltimore, Md., will be given, in Silver Medals, to members of the Junior Class who excel in *Classical Studies*.

8. The interest of a Prize Fund of \$500, founded by HAMILTON B. TOMPKINS, Esq., of Newport, R. I., will be given, in two Prizes, to members of the Sophomore Class who excel in *Mathematics*.

HAMILTON COLLEGE.

9. The interest of a Prize Fund of \$1,500, founded by CHARLES C. KINGSLEY, Esq., of Utica, will be given, in two Prizes, to members of the Senior Class who excel in *Extemporaneous Speaking*.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Kingsley Prize Debate, on the Monday afternoon preceding Commencement.
4. Kingsley Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April to Commencement.

Expenses.

Board, from \$2.50 to \$5.00 per week,	\$95 00	to	\$190 00
Fuel and Lights,	5 00	"	10 00
Room Rent, \$3 per term,	9 00	"	9 00
For sweeping and other contingencies, \$7 per term, ..	21 00	"	21 00
Tuition, \$20 per term,	60 00	"	60 00
Amount,	\$190 00		\$271 00

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known; to the whole body of students when not known, under the name of Extra Contingent Expenses.

The preceding estimate of expenses is, of course, considerably diminished in the case of those students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee, to the Sophomore Class, \$7: to the Junior, \$10: to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. That no student shall be permitted to enter on a second, or any succeeding term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

HAMILTON COLLEGE.

2. That no student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of the fact to the Executive Committee, if he is a worthy member of College and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Matriculation.

Students are not considered regular members of College, until a residence of at least three months has furnished evidence of a good moral character.

At the close of the first term after admission, if their conduct has been satisfactory, new students are allowed to enter their names in the Matriculation Book. The Laws of College provide for the withdrawal of any, who within a specified time fail to prove themselves worthy of matriculation.

Second Degrees.

Graduates of three years' standing are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the student's return to College duties; and no deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the Third Term of his Senior year in College, and made his preparation, also, in College.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers. Applicants for teachers should state definitely what service will be required, and what compensation will be paid.

Beneficiaries.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and thirty dollars a year, by placing themselves under the care of either Branch of the Presbyterian Church, or under that of the American Education Society.

In addition to this, a few Scholarships have been donated to the College, which yield to their occupants enough to pay the ordinary Term bills of the Treasurer.

LAW DEPARTMENT.

PRESIDENT.

ELLCOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, Vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unflinching tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts in the fall term; of Real Estate in the winter term; of Real Estate completed, Evidence, etc., in the spring term.

The text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

"Translators of Homer."
-

Regulations for Prize Composition.

1. Any Student of the three lower Classes in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.
2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margin, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.
3. The Essays must be left with the President before 12 o'clock on the last Wednesday in the Second Term.
4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.
5. The two successful Essayists, from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes on Commencement day.
6. A copy of each successful Essay will be preserved in the College Library.

SUBJECTS FOR THE THIRTEENTH

Clark Prize Exhibition.

WEDNESDAY, JUNE 12, 1867.

1. "The Rise and Influence of Great Cities."
 2. "The Missionary as a Pioneer of Civilization."
 3. "The Reciprocal Influence of Races in the United States."
 4. "Knowledge and Culture."
 5. "Is the Character of an Author revealed in his Writings?"
 6. "The Legacy of the Federalists."
-

Regulations for the Clark Prize.

1. Any member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must contain not more than twenty folios: it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Wednesday, April 3d, 1867.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.
5. The Orations will be delivered under the direction of the Kingsley Professor of Rhetoric, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

Subject for the Fifth Pruyn Medal Oration.

"THE DUTIES OF EDUCATED YOUNG MEN TO THE STATE."

Subject for the Fourth Head Prize Oration.

"THE INTELLECTUAL RANK OF ALEXANDER HAMILTON AMONG HIS
CONTEMPORARIES."

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the First Term, may write upon the subjects assigned.
2. Each Oration must contain not more than fifteen folios: it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.
3. The Orations must be left with the President before 12 o'clock on Friday, January 4, 1867.
4. The best Oration on each subject will be selected by the Faculty, and the names of the successful competitors announced on Friday, January 18th.
5. The Orations will be delivered and the Medal and Prize awarded on Commencement day.
6. Copies of the Orations will be kept in the College Library.

REGULATIONS
For the Twelfth Curran Prize Examination,

SATURDAY, MARCH 30, 1867.

1. Members of the Junior Class intending to compete at the Curran Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in January.

2. The examination will be held in the Philosophical Chamber, commencing at eight o'clock, and closing at one o'clock.

3. Each competitor is required to bring with him pens and ink, and a quire of "legal cap" paper.

4. Competitors are not allowed to bring with them any written or printed matter, any engravings or models for drawings, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past twelve, notice will be given that competitors may review, correct, and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz:—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative maps and drawings, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

REGULATIONS FOR THE FIRST
Tompkins Mathematical Prize Examination,

JULY 6, 1867.

1. Members of the Sophomore Class intending to compete at the Tompkins Mathematical Prize Examination, must make known their intention to the Professor of Mathematics, on or before the second Saturday of the Third Term.
2. The examination will be held in the Lecture Room of the Cabinet, beginning at ten minutes past eight, and closing at thirty minutes past twelve.
3. The work to be done will be the solution of ten problems, founded upon the mathematics of Sophomore year.
4. Each competitor must bring with him materials for writing, but no written or printed matter.
5. Copies of the successful Prize Papers will be kept in the College Library.

REGULATIONS
For the First Kingsley Prize Debate,

JULY 15, 1867.

1. The First Kingsley Prize Debate will be held on Monday Afternoon, July 15th, 1867, under the direction of the Kingsley Professor of Rhetoric.
2. From the members of the Senior Class who have gained the highest average standing in Extemporaneous Speaking, during their Junior and Senior years, four Prize Debaters will be appointed by the Faculty. Their names, with the question for debate, will be announced at the last session of the final Senior Examination. At the same time, the position of the Debaters on the affirmative or negative, will be determined by lot.
3. At the Debate, the order in which the Competitors on the affirmative and those on the negative are to be called, will each be determined by lot, publicly drawn at the time. Each Competitor will be called twice; and will be allowed to speak fifteen minutes on the first call, and ten minutes on the second call.
4. A first prize of \$70.00, and a second prize of \$30.00, will be awarded by a committee of three gentlemen, not members of the Faculty; and the award will be announced at the close of the Kingsley Prize Declamation, Monday Evening, July 15th.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are Alumni of Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the evening preceding Commencement. Persons who can supply information appropriate for the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.
